

# Convict Trash

Run 1713 - 8 July 2019

Hares - Spinifex & Dundee

## Hareline:

1714	15 July 19	Slotcard / QR	500 degrees café, 56 Railway Parade, Kogarah
1715	22 July 19	Taxing	TBA
	27-28 July		KANGAROO VALLEY Weekend
1716	29 July 19	TBA	TBA
1717	5 Aug 19	Venus	TBA

It was the old Vuja De – was it true we were back at the Captain Cook Hotel ? was it true that Loaner and Squatting were there (and hadn't really left), were we all on drugs?

What a great place to have a Run, bucket and On-On – it had all the elements – trail, park and pub - all in the right place – the edge of the throbbing heart of our great city. We celebrated 65 years of combined hashing by Spini and Dundee – and the contribution they have both made to our great club. Thanks to you both !!

## **Run 1713 – Captain Cook Hotel – The Rocks**

There was movement at the station for the word had passed around....that two B2H3ers were celebrating being around as long as that poem....

I-have-done-40-years-of-hashing-**Spini** was granted the honour (for who wouldn't want to lead out the running pack of B2H3) by I-have-only-done-25-years-**Dundee**.... although by the end of the first block, **Bingo** had taken the lead....which meant she was supposed to spot the arrows....

And so happened an on-back that wasn't meant to be one.....while **Brengun** spotted the arrow down some steps and was front runner for 5 seconds...

It took a while for **Cold Duck** to realise that I was chalkless this week, and so had less friends hanging around for hints of shortcuts. Down some steps (an up and down theme of the night) to Hickson Rd where an arrow to the right drew the pack towards the Harbour Bridge but that was not our destination...and a few moons later **Slotcard** and **Grenade** were to repeat the same mistake....

Instead we headed to the Piers, with **Sniffer** joining the running pack, and **Merkin** taking time out to ponder whether the sculptures were a permanent feature or just put out for this celebratory hash run....

Around to Barangaroo park, where **Pig** led the pack up the hill (I don't think he actually led the pack at any stage that night but I needed to include him in the storyline), and **Sir Les** was on high alert (yes, it happens) spotting the arrow off an on-back before the front runners even realised they were on one...

The pack of walkers were strolling along the pathway near the water....**Squatting** was claiming a cold excused her from running, joining **Stopcock, Dish, Venus, Goldie, Moa, Doc, Dirty** and **Taxing**...and **Goon** who appeared down a stairway to join the group.

**Cold Duck** and **Joker** faithfully followed the arrows up some stairs to another on-back....to the amusement of the hare Dundee as he caught up with the pack. Out of the park to the next check, with **Blondie** opting (incorrectly it was to turn out) to head west while **Loaner** decided all paths led to the half-built new casino.....

Down to King St wharf to a collection of clear domes where children had played earlier but now housed groups of drinkers and diners (I am not sure that you are that interested in this oddity but it had piqued the interest of the hare on his trail-setting journey). Another check (I will take back my circle run report that there could have been more checks....just less distance between them!), and **Joker** picked the right way to the left up steps into the city.....

Along to Druitt St to another check, where the time suggested that we should be turning left again but the hare (after 25 hashing years of doing what he pleased) had other ideas....and sent us back to Darling Harbour.....through the Monday night crowds. An onback gave the front runners some pause, while the rest of us (you can call us slow, I don't mind) caught up and headed around the harbour...up to another check near Pyrmont Bridge.

The alert pack realised the only way was over....zig zagging through the selfie-wielding tourists, the fast-moving cycle-commuters and hovering hordes of hashers (went for alliteration rather than truth in numbers, it was more like a small bunch).

Somewhere along the path, we dropped off **Short'n'Curly** to find her own path in life. The pack ventured up to Kent St and put their heads down for the long stretch home.....to where fill-in

bucketmaster **QR** had the drinks cold and **Spini** was taking endless photos so she would remember the night she reached 40 years....

P.S. Great opportunities for hares – for run on 29 July, and runs in August, September and October – don't miss out, book early!!

## CIRCLE UP!!

Hannibal keeps in contact from his hypothermic recovery pool – where he wades up and down, does squats, stretches and chats to the other recuperating inmates. We thank him for finding the time to turn his considerable legal mind to matters of the hash and for providing valuable information and insight for our circle.

What do you get when you mix SPINIFEX, DUNDEE, Captain Cook, a pub, The Rocks, B2H3, beer and Sydney all in a bucket?

You get the most Australian run of all time!

SPINIFEX is the most Australian plant in the world.

DUNDEE is one of Hoge's best characters.

Captain Cook Discovered Botany Bay.

Beer, pubs and buckets are essential hash elements.

The Rocks used to have the bubonic plague and prostitution; but the bubonic plague has gone now; So, features as a B2H3 celebration destination.

Cheers to SPINIFEX (Mitchell Grass) and DUNDEE.

## Visitors

We were delighted to welcome a couple of visitors agains this week

- Bren Gun (who used to work in the area) – and is becoming a “reluctant visitor”. He is struggling to come to terms with our B2H3 hash-centric view of visitors – anyone who is not a member. However, he may not be aware that any changes to the B2H3 constitution require a referendum at the AGPU and with 75% majority of sober members.
- Horse Sex Noises – who was visiting from Denver and has a few more days in Sydney . She normally makes noises that sound like rooting horses – which she was able to demonstrate in the circle. It was like being at the Royal Easter.

## Circle Run Report

This week, Dundee set the trail – and also acted as guest TM. It was probably because he forgot to make a readable map and it was easier to TM than explain the trail to Tickle. I am sure that (as usual) he was also ready to give the Circle run report and then write up a report for the trash – which, experience has shown, is an excellent way to highly praise every aspect of the run and explain its wondrousness. However, instead of the normal 3 card trick, Tickle gave the run “Circle” run report – which contained the following experiences analysis.

- The run used the area well and included quite a few “ins” and “outs”
- There could have been slightly more checks and on-backs
- There could have been slightly less long stretches of run (although it is hard to comprehend where any long stretches could exist in this wibbly wobbly – wibbly wobbly area)

After considerable thought and consultation, Tickle awarded the run 8 – and thanked the hares for setting it – Thanks Dundee and Spinifex.

## Prickette of the Week

**Squatting Squaw** - For a “Dame Nellie” like farewell performance – and being at the circle with Loaner so soon after her huge farewell party – where they were showered with free lunch, cards and gifts.

**Short & Curly** – for heading up an escalator on the run – when she should have gone down a neighbouring escalator – and subsequently losing herself on the run. Interestingly – she hid herself behind Slotcard (which is another incredible feat) at the circle – so she wouldn’t be found. On further discovery – we found out that Slotcard and Short & Curly are born on the same day (but not the same year – don’t know about the father), and therefore consider themselves “Sistas”.

**Bingo** – it seems that Bingo was also a little over-awed and confused in the big city and nearly went “up” a “down” escalator as the arrow slightly pointed the wrong way. Without being there (and knowing the real truth) it appears that Dundee has introduced “Escalator confusion” as a new method to stump the pack.

**Slotcard**- mentioned that she was walking along with Grenade and thought that they might have been on trail. As they mounted some significant stairs (which was exhausting) – they were not able to see any arrows. So, they asked a critical question – Are we on a trail that the hare has not marked with arrows (what was the hare thinking)? OR Are we just having an “out of body experience” about what it would be like to be on trail? It turned out that they were not on trail – but they both felt the shiver of excitement that is associated with being on trail (and will look a little more diligently to actually find arrows next time).

## Prick of the Week

**Loaner** - For a “Dame Nellie” like farewell performance – and being at the circle with Squatting so soon after her huge farewell party – where they were showered with free lunch, cards and gifts.

**Stopcock** - for catching the bus home with Loaner and Squatting after round “1” of the farewell celebrations, and then falling out of his seat every time the bus went around a corner.

**Pig** – for showing his doodle to the Ned Kelly statue at Barangaroo – but not holding the pose long enough for Spini to gather her wits, grab her phone from her person with her shaking, excited hands, and lining up a Shot for the year book.

## Winners – Pig & Short & Curly

**JOIN RABBIT ON THE BLOODY LONG WALK**

SUNDAY 10<sup>TH</sup> NOVEMBER 2019

35K WALK FROM PIONEER PARK MALABAR TO HICKSON ROAD RESERVE, THE ROCKS TO RAISE FUNDS AND AWARENESS FOR MITOCHONDRIAL DISEASE.

Mitochondrial disease (mito) is a debilitating genetic disorder that robs the body's cells of energy, causing multiple organ dysfunction or failure and potentially death. The harsh facts:

- Mito affects 1 in 5000 people, making it the second most commonly diagnosed, serious genetic disease after cystic fibrosis
- One in 200 people, or more than 120,000 Australians, may carry genetic mutations that put them at risk for developing mito or other related symptoms such as diabetes, deafness or seizures during their lifetimes
- There are many forms of mitochondrial disease; it is highly complex and can affect anyone of any age
- There are no cures and few effective treatment

This is why The Bloody Long Walk is so important. Not only does the event raise awareness of this debilitating disease, it also raises vital funds to enable much-needed

support to patients and their families and essential research into the prevention, diagnosis, treatment and cure of mitochondrial disorders.

IT WOULD BE GREAT TO HAVE SOME COMPANY ON THIS WALK SO IF YOU ARE INTERESTED IN THIS CHALLENGE PLEASE LET ME KNOW.

FOR FURTHER INFORMATION, JUST GOOGLE THE BLOODY LONG WALK & CLICK ON THE SYDNEY EAST WALK.

#### **How to have a good weekend**

An old, white haired man walked into a jewellery store one Friday evening with a beautiful young gal at his side.

He told the jeweller he was looking for a special ring for his girlfriend.

The jeweller looked through his stock and brought out a \$5,000 ring and showed it to him. The old man said, "I don't think you understand; I want something very special."

At that statement, the jeweller went to his special stock and brought another ring over. "Here's a stunning ring at only \$40,000," the jeweller said.

The young lady's eyes sparkled and her whole body trembled with excitement.

The old man seeing this said, "We'll take it." The jeweller asked how payment would be made and the old man stated, by cheque. "I know you need to make sure my cheque is good, so I'll write it now

and you can call the bank Monday to verify the funds and I'll pick the ring up Monday afternoon," he said.

Monday morning, a very teed-off jeweller phoned the old man. "There's No money in that account." "I know", said the old man, "but can you imagine the weekend I had?"

### **Handy Hints**

- Before attempting to remove stubborn stains from a garment, always circle the stain in permanent pen, so that when you remove the garment from the washing machine you can easily locate the area of the stain and check that it has gone.
- Don't waste money buying expensive binoculars. Simply stand next to the object you wish to view.
- Clumsy? Avoid cutting yourself while slicing vegetables by getting someone else to hold them while you chop away.
- Always poo at work. Not only will you save money on toilet paper, but you'll also be getting paid for it.
- Olympic athletes. Disguise the fact that you've taken steroids by running a bit slower.
- Smokers. Save on matches and lighters, by simply lighting your next fag from the butt of your last one.
- Heavy smokers. Don't throw away those filters from the end of your cigarettes. Save them up and within a few years you'll have enough to insulate your roof.
- A mouse trap placed on top on of your alarm clock will prevent you from rolling over and going back to sleep.
- Avoid bickering and petty arguments by immediately punching anyone with whom you disagree.
- Putting just the right amount of gin in your goldfish bowl makes the fishes' eyes bulge and cause them to swim in an amusing manner.
- AVOID parking tickets by leaving your windscreen wipers turned to 'fast wipe' whenever you leave your car parked illegally. Brilliant!
- HOUSEWIVES. I find the best way to get two bottles of washing-up liquid for the price of one is by putting one in your shopping trolley and the other in your coat pocket.
