

Convict Trash

Run 1750: 1st June 2020

Hare: Pig - Ramsgate

Starters Gun

What a difference a pandemic makes.

Our last run was the 16th March; 10 missed opportunities to lay shit on one another; drink cheap booze and generally eat too much! There was much ground to be made up, let alone Kilometres.

Outdoor gatherings are still limited to 20 but was that going to stop the impressive roll up of 35 Hashers. No Way Jose!! We gathered near the well-lit public toilets at Cook's Park (the very centre of the Botany Bay Shore Line) on a dark windy freezing first day of Winter. **Stop Cock** had a bucket, **Blondie** had some Chalk (no map alas), **Cold Duck** reminded me he was RA; apparently, **Hannibal** was our 'virtual' RA. **Dundee** had sent out more emails than the Coles marketing department has catalogues, just to ensure we were well advised (yet temporarily lost) of the Start.

And just to make sure the COVID Police could spot a COVID rule infraction, **Spinifex** handed out once-only-cause-we-missed-you, High-Viz, One-size-fits-all Vests, which **Hellsmellher** and **Doublebanger** had miraculously procured while in Lockdown. **Slops** had worked out how to wear his backwards to increase the wind protection to his otherwise beer-chilled throat. **Taxing** mused that **Bingo's** vest was much larger than **Goon's**. "Goon's is working harder" **Bingo** explained.

Run Report

Pig's Painfully Ponderous Plod

Back at last from the enforced layoff many of the group had espoused their daily fitness regime on WhatsApp, proposing a fast & furious hash run. All would be soon revealed as a bitterly cold night had brought almost all B2H3 members & a couple of visitors for **Pig's** inaugural post 'Ronavirus' run round Ramsgate (yeah I know but was just trying to create some alliteration). Unaware as to the actual starting point & no sign of the hare, a group had positioned themselves inside the local toilet block, which then attracted the rest to follow suit.

It became obvious for those who traversed the area looking for the hare that this place wasn't the actual starting point but it offered some sort of shelter from the icy wind so, after completing the run set, **Pig** opted to make it thus & we set off heading east. Dopey old **Dundee** & fleet footed **Cameron** were racing to the first corner, which quickly exposed who had been in training & who hadn't with **DoD** knocked up after only 200 metres.

Turning south into the icy headwind **DoD** & **FFC** found the first On Back on the boardwalk, allowing **Blondie** to consult the map for the first time & we were herded west up that road that leads to the old Mobil station & then south again down another road towards Dolls Point to a check. **Pig** had ensured there would be no mad sprints on the run by placing the arrows a bloody long way from the check & on back points, resulting in mild delays in finding but allowing the pack to catch the leaders.

Trail was found in the park near the 16 footers clubhouse & those who religiously follow trail (**Dundee**, **Growsome family**, **SLAP** & **Bingo** – she follows anyone so she doesn't become lost) meandered around the club & those who always shortcut (**Duck**) cut around the club & continued off trail for some reason as **SLAP**

& **DoD** found another On Back on the boardwalk. Don't know what happened to the rest of the pack at this time because they were nowhere to be seen, maybe helping the TM read the map.

Heading west again another check was found on that road that goes to a roundabout further north (don't have a map so can't give the road names), where trail was found heading south once again, then west & north through some paddocks where **Sir Les** caught the group, Heading west now up another road that goes up to Rocky Point Road but turned north before getting there the front runners careered up another road that leads to the road that runs from Dolls Point to that BP station on the corner of Rocky Point Road.

Crossing that road we were lead again through a park area before heading south to another bloody long road that headed down to Alice Street (or maybe it was Alice Street) & returned to **Stopcocks** faithful bucket.

Well done **Pig** a well-set run that kept us warm & exercised some aching muscles.

On On **Anonymous**.

Circle Up

The Bucket was dragged around to the least lit, least windy (and therefore less aromatic) side of the Public Toilets. The Pack turned up in dribs and drabs, most seeking to pull on some winter weather protection. **Tickle**, who was one of the few who ran in T-Shirt and shorts, changed quickly as did **Cold Duck**, **Sir Les** and **Dundee**. **Canookie**, **Scotch Mist** and sons **Andrew** and **Cameron** brought in the middle of the Pack.

The 1.5m social distancing was all but abandoned as Hashers gathered to chat, drink and huddle against the Cold Wind. The walkers, including **Short N Curly**, **Brockie**, **Sniffer**, **Rabbit**, **Goldmark**, **SlotCard** and **Grenade** fell upon the Champers and waited patiently for the Pizzas to arrive.

RA's Report

Cold Duck found his voice and called Circle Up!

Welcome to Hash 'Live' not 'virtual' – We are back. Isn't it great to have a run, walk, Bucket and Circle together again. It's been 8 or 9 weeks (10 actually **Duck**..) since we have done this. Let the bullshit recommence!

A big Thank you to Pig for doing our first run back and organizing the Pizzas and to our hard working Committee.

Anys Horibillis.

Queen called 1992 an Anus Horibilis year – a really bad yesr.

- Prince Andrew divorced Fergie
- Princess Anne divorced Mark Phillips
- Dianna and Charles's affairs became public
- Fergie's Toe sucking scandal
- The Queen's beloved Windsor Castle burnt down.

Compared to 2020 it was nothing!

How could a Year be any worse than 2020 – a double Anus Horibilis

- Drought earlier in the year – one of the worst on record
- Devastating Fires earlier in the year – one of the worst.
We lost a good Hashman in **Rover**.
- Floods later on in some areas.
- The pandemic, which has affected all of our lives like never before
- I'm sure we are all glad that we are living in Australia and that we didn't book a cruise on the Ruby Princess. Interesting to note that we have lost just over 100 people to the virus Australia wide – obviously that is not great, but in Australia we lose approximately 5 people every hour to Cancer. That's over 120 people a Day!
- Lastly, the biggest catastrophe of the year, we lost a founding father of our club recently in Stringbean. We will miss his wit, charm, sense of humour and his beautifully buffed hair. Whenever

he visited us it was like a royal visit. We feel your pain Grewsome, Scotch Mist, Cameron and Andrew – our thoughts are with you.

Run Review

Blondie, a little overwhelmed at the resumption of Committee duties (and no map) had overlooked the selection (targeting) of a Run Reporter. **Grewsome**, ever the Hash champion stepped into the breach.

- Full of praise for **Pig** to have put his hand up for this run.
- Mentioned Primrose House (to which this Scribe thought.. where?)
- The Run provided many shortcuts to keep the Pack together.
- Ran around some familiar Scout Halls (this Scribe is now thoroughly lost..)

Slot Card	Spinifex	Wrestling with the concept of a zoom meeting and remaining blissfully unaware that her constant movement to attend household functions meant that we saw more of Slottie's ample bustline than her face.
Doc	Blondie	Doc failed in his nominated role as pizza-table provider. The Pizzas were subsequently served from whatever came to hand – a fallen shopping trolley.
Hannibal Lector	Spinifex	As Virtual RA, Hannibal had an amazing knowledge of country-wide brothels in his Virtual RA Reports. Hannibal was either a dreamer or a COVID infraction specialist (COVIDiot)
