Hare: Scotch Mist – Kirrawee

Starters Gun

Back in the Shire for a run around Kirrawee. The pack had gathered in 3 separate groups, inside the pub, outside the pub, and down outside Bunnings where the Bucket was to be, so initially it seemed like there would not be many in attendance tonight, but it turned out we had almost all the regulars along for what was a lovely night to caper around Kirrawee.

Run Review by Dundee

Scotch Mist made a bad move by asking Dundee to move?? And he proceeded to tell us why. Was this a report on the run or about Dundee? Whaffle, whaffle! Started here with young Cameron, with the oldest member keeping pace, led him to an On back, and then raced Andrew down the hill.

We went here, and we went there, here and there, and in circles. Very well set run. Some knew we had an opportunity to stay back, and we finished the run in a very short time.

It was very hard hearing what Dundee was actually saying as he was turning around in circles, and talking to the people behind him. Anyway a very good run 10/10

RA's Report –

Kirrawee

- Been here many times during my time as RA, so not much more to talk about Kirrawee. Was never much anyway!
- If you might recall (& you probably don't) Kirrawee is Aboriginal for either "Lengthy" or "place of White Cockatoo". The local Council has gone with the latter to be politically correct.
- One thing I didn't know about Kirrawee, and you might not either, that is semi interesting, is that it contains remnants of the "Sydney Turpentine Ironbark Forest", a critically endangered ecological community.
- Only 0.50% of this Forest remains – it once covered most of the inner west and southern suburbs of Sydney

- There are 2 small pockets in Kirrawee – Flora Street Reserve, on the corner of Flora and Arcadia streets, and Pollard Park, at the southern end of the main street on the corner of Oak Road and President Avenue
- There was another at the old Brick Pit site, which is more than likely not there anymore
- The Forest grow well in Clay soil, and can grown up to 30 metres tall
- Average House Price is \$1.2 Million

Pig nominated Dirty Weekend for casting dispersions on our RA

Prick

Hellismellher nominated Dundee – a perfectly good \$1 million bridge to cross the highway, and Dundee runs across 8 lanes of traffic.

Grewsome nominated Dundee – he is always ranting on about how our Government spends his money and he runs across the highway.

Pig nominated Grewsome for thinking Dundee ever paid taxes.

Grewsome nominated Doc for telling us about going for his Covid jab, and the side effects being you put your T-Shirt on inside out

Pig nominated Doc who had a map of the walk, and thinking he could short cut here and there, and ended up walking longer than it took him to drive here for the run.

?? nominated Doc who when asked about the side effects in his arm, said No, the injection was in the other arm.

Are my testicles black?

A suspected Covid-19 male patient is lying in bed in hospital, wearing an oxygen mask over his mouth and nose. A young student female nurse appears and gives him a partial sponge bath.

“Nurse” he mumbles from behind the mask, “are my testicles black?”

Embarrassed, the young nurse replies, “I don’t know, Sir. I’m only here to wash your body and feet”.

He struggles to ask again, Nurse, please check for me. Are my testicles black?”

Concerned that he might elevate his blood pressure and heart rate from worrying about his testicles, she overcomes her embarrassment and pulls back the covers.

She raises his gown, holds his manhood in one hand and his testicles gently in the other. She looks very closely and says, “There’s nothing wrong with them, Sir. They look fine.”

The man slowly pulls off his oxygen mask, smiles at her, and says very slowly, “Thank you very much. That was wonderful. Now listen very, very closely:

“Are – my – test – results – back?”

MY TEACHER POINTED ME WITH HIS RULER AND SAID: "AT THE END OF THIS RULER THERE'S AN IDIOT!"

I GOT DETENTION AFTER ASKING WHICH END.
