

Convict Trash

Run COVID 3: 2nd May 2020

Hare: Hannibal Lector – Cabramatta

Run Report

Cabramatta is the local aboriginal word for Vietnam or good place for a wet market. There are so many attractive aspects to Cabramatta it is impossible to know where to start. A picture of one is attached.

A run from Cabramatta however must always include details about the magnificent Cabramatta Golf Course.

With its rich history and exceptional facilities available, why would you want to go anywhere else? Cabramatta Golf Club provides hashers throughout the south west suburbs of Sydney with cost-effective membership to ensure you can stay social while enjoying the carefully laid-out course for a nice, relaxing nine or eighteen hole game on a serene summery morning.

Relaxing, that is, until your first-hole birdie is overshadowed by a string of hooks and slices that would make Ben Hogan turn over in his grave. But then you calm your nerves with the knowledge that the 18th hole is just a few drives, chips and putts away, a nice, cold, refreshing drink with your name written all over it.

A Sydney golf club that offers not just a pristine course but so much more.

Sure, I could go on about how impressive the course is. How the Cabramatta Creek makes its way majestically through the layout, picture attached, that each of the holes has been carefully designed, or that the green staff have an extensive amount of experience and knowledge to ensure [the course](#) lives up to its outstanding reputation. But I won't.

Instead, I'll tell you about some of the great facilities you'll be able to take advantage of when choosing Royal Cabramatta as your golf club in South West Sydney. Boasting more than 25 years' experience in hospitality, you can bet the meal you're served is nothing short of top-notch. Traditional Vietnamese favourites such as Chicken Schnitzel and Cheeseburger and chips are always available.
