Circle Report

Hannibal noticed **Dundee** with pen in hand & remarked that at least we would have a serious circle & run report tonight with nothing but factual information, unlike last week – fancy putting **Pig & Dundee** at the back of the pack!! Kogarah, apparently, was abo for a place of rushes & reeds, must've been a fucking big high tide that day. It also was well known for its farmland, where **Holeproof** used to complain of reed rash on her pussy from the many bonks undertaken amongst the cow shit.

It was also the origin of the Moorefield Race Course, which later became the Moorefield High School, where the illustrious sailor Kay Cottee attended between races. Other recognisable inhabitants were Bruce Lee & Clive James of course & anyone who hasn't read his unreliable memoirs book is missing the funniest novel ever written. As it says at the start of the book "do not read this book in a public area or you risk being taken away". It's impossible to read without laughing out loud.

The area is also well known for Kogarah Tavern, which was approved by Council in order that **Slops** wouldn't have to walk very far from the station & then he started rambling about someone who loved children & we thought he was talking about **Canon** but it was some bloke who wrote a book or something. When he started bullshitting about knowing something about the mighty St. George Dragons, we all turned off & I stopped writing.

Run Report

Ok, after much ado, here's the report – **Rexy** was selected to issue the last rites to the run (see that's in there every week & saves me trying to remember stuff) & began by talking about back passages & we all looked to check it out & gave her gold star & elephant stamp. There were plenty of checks & on backs & I must've missed them cause it seemed like a flat sprint but I'm bloody old & 100 metres stagger seems like a sprint to me. Then she wanted to talk about the mighty Dragons & nice smells but I don't think the two were compatible because I know footballers & nice smells don't relate unless you're a smelly fish. Then she mentioned about **QR** sending her the wrong way & we all yawned cause that's what he does every week. There were heaps of arrows & nobody was lost except the Trail Master & he lives there. She gave the run a B+ & a Gold Star.

Visitors: - **Oswaldo** and **DNF**

Athletes: - **None**

Birthdays: - **None**

New Shoes: - **QR** nominated himself cause he likes drinking out of shoes or just about anything really.

Prickette and Prick nominations

Grenade was nominated by **JJ** for spreading her girl germs. Fuck **Bingo's** upset my macro settings.

Taxing was nominated by **Rabbit** for killing a bee & completely upsetting the world's equilibrium.

Rexy was nominated by **Hannibal** for falling over when sober.

QR was nominated by **Pig** for nominating himself for New Shoes.

Goon was nominated by **Pig** for leaving the window in **Tickle's** car a couple of years ago but he'd only just remembered.

Dame Nellie was nominated by **Grewsome** for having lived in Carlton for many years but not knowing where he was anytime on the run – he at least showed up on the right night at the right place. ed.

Canon was nominated by **Duck** for pretending that he actually attended school.

Pricks – Grenade & Canon

Jokes: - Big Ears told one about his friend Noddy – true story, that's how he was named - & he explained the story about talking nuts that happened to be complementary (on location joke as my daughter used to tell me – you had to be there).

On On:-

Grenade had chosen a new venue for dinner, which turned out to be Summalee Thai, considered by most critics to be the best & most authentic Thai restaurant in Sydney. Some may remember your scribe organised a run from its former residence in the Bank Hotel Newtown about 20 years ago. Unlike other sanitised Thai restaurants in Australia, Summalee took its lead from David Thompson of Darley Street Thai fame, who became the only 4 hat Thai chef in the world when he moved to London & is now domiciled in Bangkok (the most aptly named city in the world).

Many of you have no doubt visited Thailand & would understand the food is generally very spicy & if they label something as being spicy it's nose bleeding bloody hot. So your scribe happened to be a participant at the table of our esteemed Trail Master who had ordered a fish meal with dipping sauce. Unfortunately, your TM thought dipping was a pseudonym for smothering & I watched as he smothered his first mouthful, which entered the mouth at the same time as he was cutting & smothering his second bite. Now one has to envisage that the nerve cells in the **QR** body are some distance from the brain cells as he immediately inserted the next mouthful before the pain had hit the brain & he was rendered sans voice but I was able to lip read some of the words trying to be uttered &, I think, shit & fuck were amongst them.

The TM head then began to take on the image of an over ripe beetroot &, what little hair left on his melon was making a sizzling noise & appearing like shrivelled spinach. Now those with experience of Thai food of the nose bleeding variety are aware that, when

encountering such food, boiled rice is the only remedy & drinking water only makes the pain more unbearable. So 3 bottles of water later our convulsing TM had thrown the dipping sauce well out of reach & the tears emanating from his highly bloodshot eyes were evaporating into steam so he closely resembled an operating volcano.

Before another eruption had begun I thought the best idea was to leave the abode & the TM to his fate in the hope that he didn't have to fart soon – the old saying “it's a brave man who farts in Thailand” was prescribed for such a condition.

I'll be back to the restaurant in the hope it hasn't been fully destroyed.

80th Anniversary

Hash House Harriers (1938), Kuala Lumpur, Malaysia, is pleased to announce that it will be holding a celebration to observe its 80th Anniversary in September, 2018. Hashers from all corners of the hash diaspora bearing our name, or variations of it, are cordially invited to ‘return’ to the cradle – and the Eden - of hashdom, for a grand extravaganza in celebration of this momentous milestone. Participants will get to be a part of what is shaping up to be the largest congregation of hashers the world has ever known. Motherhash is ready to welcome you back to the origins; be transported back in time to where our hash forebears

first germinated and gave birth to our very realm. Gispert and his band of trailblazing initiates of 1938 will be on hand, metaphorically, to welcome you back to our spiritual home, the HASH HOUSE. Yes, Motherhash's 80th Anniversary will conjunct with the unveiling of the resurrected HASH HOUSE, albeit by necessity in a different locality.

Be the fortunate first 1000 registrants, and pay only USD80.00 for the hashing experience of your lifetime! Registrations can be done online. Visit our website at: www.motherhash.com, and click on the link to our 80th Anniversary.

Please note that registrations are only accepted via our online registration portal as mentioned above, so please help out your friends who are not so IT savvy. We will not accept any hard copy or direct registrations. This 3 days event is open to ladies as well.

On On to the BIG 80th!!!

Hardy Boy Organising Secretary Motherhash's 80th Anniversary

Ps We strongly suggest, the real hashers register quickly before the Early Bird rate is all taken up – 518 at time of writing.

Dundee's Rant of The Week

I was going to write something else but I've just tried to access the Census line, like everyone else, as this was the way I was told to complete the Census – too busy call back tomorrow. Fact is I'll be somewhere else tomorrow in a place where the Census has already been completed I suppose & won't have access to the site anyway so I'll probably be somewhere else the next day & there will be a number of other people with me, who I'll include in my report cause they'll be with me & I have to include everyone in the abode at the time of reporting. So, if there are others like me, now the Australian population will have about 30 million people instead of 23 million as supposed & most of them are probably Muslims & they all carry AK 47's & drive erratically on purpose & soon there'll only be 20 million & most of them'll be Muslims & they don't like each other very much so in 2020 we'll only have about 5 million people in Australia at the next Census.

Please don't tell me this rubbish was arranged by anyone else except a brain dead politician or bureaucrat.

Snickers' Serious Scientific Summations

Snickers is working on a failsafe Census preparation system, which will entail every person in Australia being visited on the night by a robot, who will verify the existence of the personnel in the abode by digitising a part of their genitals. Older males will have the shorter numbers & young blacks the longer ones. All females will be required to shave to Brazilian status where the opposite will apply to the males, as the older females will have the longer numbers & the younger ones the shorter numbers. It's unbelievable that no government employee has thought of this incredibly easy system of recognition (Hitler was close I suppose). All you need to do to be recognised by a computer is to flash your dick or pussy, easy stuff.

Another brilliant idea from our resident scientist.
