## Run 1562

### 1562 – Tickle – The Rocks

QR had a huge day at the Fleet Hash Pre-city to surf and it knocked him for 6. All the heavy drinking and social carousing can wear one down, as QR found after a night on the tiles. So he arrived at the Glenmore Hotel, a shaken man, unfit for the rigours of TMing an excited pack around Sydney's first hash heartland. So the great honour of TM'ing was passed to Goon, who seized the gyprock with relish and could not wait to mark off all those on-backs that lead down every set of steep stairs that the convicts built.

It was a glorious night for a run, and a good pack turned up. Loaner and Squatting made their way out at night (despite heading overseas on Thursday), Pig, Growsome, Rex, Merkin, Joker, Sir Les Bingo and Dundee all headed up from the shire. The eastern suburbs set was well represented - Dame Nellie brought OBS – an old mate of his who used to run with us in the 80's, Canookie, Saint and Coming Anyway. There may have been a couple of others, but I was usually so far behind the pack, I couldn't catch them.

The run took us through the narrow alleys of the Rocks, under the Bridge and up and down the lanes of Dawes Point. We avoided all the main roads and discovered places that were previously hardly known to mankind. The highlight of the run was our first hash exposure to Barangaroo. As we entered Sydney's finest new park we were cheered on and photographed by a huge group of potential hashers. They were waiting for us, and there was palpable excitement with the expectation that Loaner would "nude up". But, on this rare occasion it was not to be – and the poor young hashers had to mope home disappointed.

Clover Moore has done a great job in designing a "Barangaroo" as a hash haven in the heart of the city, with lots of hidden stairways, and plenty of paths to tangle around, confuse and confound. I'm sure this will not be the first time we are noodled in the park.

After the excitement of Barangaroo, the pack turned for home, via the High St – which was high, until we descended the "stairs of death" to sea level, near the site of Packer's Casino. A short run along Hickson road brought us to the reverse "Stairs of death" back to a level slightly higher than we were before. One final "on-back" into a city cycle tunnel, and then the final ascent of the stairs to Observatory Hill, brought us to a well-earned bucket.

A great run, on a balmy night, though ideal hash territory nearly drove Loaner's hash-o-meter needle off the scale. Great Job – can't wait for Tickle's next birthday run.

On On,

Goon

## Circle Report

**Hannibal** called the gabbling rabble together, nobody taking any notice, until names were called & lights shone on the wrinkly faces. The Rocks was apparently the place of the first settlement, which amazed everyone who believed the world evolved around the Shire, about 30 kms distant.

We were then exposed to the debauchery, semen & prostitution, which would never had occurred in the Shire, so that explained it. There was much shanghaiing & bare knuckle boxing as well, where a Larry Foley beat a Sandy Rose (suppose that's a bloke not a flower) over 71 rounds of 3 seconds each & was broken up by the Push who became bored. Apparently the winner's prize was to root **Holeproof** but everybody else had already experienced the event so it wasn't much of a prize.

Then he started talking about the Glenmore but I couldn't keep up with his rhetoric so you won't be reading it here but he left me a Lawson Poem – The Bastard From The Bush:

**“Would you dong a bloody copper if you caught the cunt alone? Would you stoush a swell or Chin Lee split his garret with a stone? Would you have a mole (Hannibal thought it was spelt moll but we know all about moles in the Hash) to keep you? Would you swear off work for good? What? Live off prostitution? My colonial (can't read – Hannibal writes like a doctor – think it's expletive cause I don't like using bad language) I would.”**

## Run Report

Ok, after much ado, here's the report – **Loan Arranger** was selected to issue the last rites to the run (can't be bothered altering last week's report) & suggested it was an outstanding run, which it was, with some steps (read a fucking shitload, my fitbit suggested I climbed 82 stories) & another shitload of on backs, which kept all of us together – it was either that or we don't run too well anymore. We also experienced a group cheer squad, which applauded loudly as we sprinted past (ed licence). He gave **Tickle** 9,996 out of 10, which shows why he was hand picked to be a bank manager.

**Visitors:** - Oswaldo, Lantana, Obs from Auckland and DNF.

**Athletes:** - Squatting Squaw – 300 runs.

**Birthdays:** - Tickle, who celebrated her 25<sup>th</sup>. A few years ago but Goon reckons (sans glasses) that she was only 24.

**New Shoes:** - None, QR can't afford to buy new shoes every week.

## Prickette and Prick nominations

**Blondie** was nominated by **Grewsome** for being the only B2H3 member to run the City to Surf & if she hadn't been pissed the night before we wouldn't have had anyone.

**Loan Arranger** was nominated by **Grewsome** for suggesting he didn't run the C2S cause he was going o/s next Thursday. Suppose he reckoned that he might not have finished in time to make the flight.

**QR** was nominated by **Merkin** for seducing him into attending the Old Fitzroy Hotel while he had a snake's, where they spent the rest of the day cause the publican is a particularly nice bloke & we should set more runs from there.

**Dunno** was nominated by **Dunno** for

**Dunno** was nominated by **Dunno** for

Just keeping some areas operative for next week so I don't have to do it again (I call them macros).

## **Pricks – Loan Arranger & Blondie**

Jokes: - none

### 80th Anniversary

Hash House Harriers (1938), Kuala Lumpur, Malaysia, is pleased to announce that it will be holding a celebration to observe its 80th Anniversary in September, 2018. Hashers from all corners of the hash diaspora bearing our name, or variations of it, are cordially invited to ‘return’ to the cradle – and the Eden - of hashdom, for a grand extravaganza in celebration of this momentous milestone. Participants will get to be a part of what is shaping up to be the largest congregation of hashers the world has ever known. Motherhash is ready to welcome you back to the origins; be transported back in time to where our hash forebears

first germinated and gave birth to our very realm. Gispert and his band of trailblazing initiates of 1938 will be on hand, metaphorically, to welcome you back to our spiritual home, the HASH HOUSE. Yes, Motherhash's 80th Anniversary will conjunct with the unveiling of the resurrected HASH HOUSE, albeit by necessity in a different locality.

Be the fortunate first 1000 registrants, and pay only USD80.00 for the hashing experience of your lifetime! Registrations can be done online. Visit our website at: [www.motherhash.com](http://www.motherhash.com), and click on the link to our 80th Anniversary.

Please note that registrations are only accepted via our online registration portal as mentioned above, so please help out your friends who are not so IT savvy. We will not accept any hard copy or direct registrations. This 3 days event is open to ladies as well.

On On to the BIG 80th!!!

Hardy Boy Organising Secretary Motherhash's 80th Anniversary

Ps We strongly suggest, the real hashers register quickly before the Early Bird rate is all taken up – 518 at time of writing.

### Dundee's Rant of The Week

**I was listening to some to technical genius, with, apparently lots of dough but no brains, tell us that he could build a fast train system that could run between Sydney & Melbourne in 100 minutes. Now I'm no mathematical guru but I understand the distance between the two cities is around 900 kms., virtually as the crow flies. The fastest train currently in operation in China can reach a maximum speed of 487 kmh, which takes around 15 minutes to reach that speed. That also suggests you could operate at that speed throughout the journey, including the city suburbs – don't wear a hat.**

**Not only will the journey take 100 minutes it'll also stop eight times in some magic cities this lunatic intends to build to finance the venture. Where he could possibly build any of these cities is a mystery, without any of the necessary infrastructure or land ownership.**

What is most amazing is this brain dead is receiving media acceptance from most outlets, which didn't have anything else worth reporting for that week. Admittedly most were offering some scepticism but the enthusiasm being shown by one organisation is mind blowing. Why do we give these useless journalists any air?

Now there could be an answer – the Hyperloop being erected in California, which will travel between LA & Frisco in 34 minutes – but that's a system operating in a cylinder of a virtual vacuum with polarised magnetic rails, which is something that would take a millennium to gain approval here, with our over regulated government enterprise system.

## **Snickers' Serious Scientific Summations**

**Snickers is working on a new rail system to incorporate his methane fart factory. Let's hope the smell will be overcome.**
