Run Report: Possibility of a run report this week? Fat chance – it was not eaten by or fed to anyone this week. Scotch Mist was so determined the report not become part of the food chain she decided to hide it. Great Plan! Except she can't remember where she put it.....

CIRCLE REPORT

Historian: Hannibal (BA MA PhD, Sexologist, Viticulture Oenologist, Pomologist and Hippotherapist) thought bowling an appropriate topic (his inspiration for this lesson must be because bucket was opposite a lawn bowls club and the pub next door to a bowling alley). Anyway, Anyway, in 1934, British Anthropologist (and Hannibal's great mate) Sir Flinders Petrie, uncovered an AMF bowling alley hidden in the bowels of a Pyramid built for the first Egyptian Pharaoh, Narmer. Sir Petrie also found a surprising number of hieroglyphics depicting runners following arrows, yelling 'On On' and drinking beer all over Egypt – he concluded there must be a lot of them or they run a bloody long way!

Anyway, Anyway, back to bowling: today over 100 million people go to AMF bowling alleys in 90 different countries because they really haven't got a life. And, shock, horror! 10-pin bowling is shortlisted for inclusion at the 2020 Summer Olympics along with Hashing and six other worthless sports. What next? Hopscotch and Hoola Hoop?

Run Reporter: **Goon.** very slow start due to hooning cops doing burnouts down Botany Road with sirens blaring, lights flashing and there was no Dundee to lead the pack across the dangerous intersection (typical bloke, never around when you need him most).

Squatting Squaw had set a good trail with runners passing the walkers a few times until the walkers pissed off and went home. His lies and innuendo were not appreciated and our historian had to doge a few verbal bullets. To continue: trail went up and down, up and down, up a massive hill etc etc. The pack did stay together so he gave it a worthy 9/10 (plus 2 for being out of the Shire – less 1 for not being in the Shire)

Visitors: **Ice Cube** and **Hot Dick.**

Athletes: **Goldmark** : a sparkling, gleaming and gold plated 250 runs, well done!

Prick Nominations

Moa nominated **Merkin** who arrived at The Newmarket and went to get changed – shock! Horror!! He had a hole in his undies but couldn't find any B2H3 member to darn so he went home, the big sook!

Holeproof nominated **Pseudo** for being the first man to finally tell her the secret to judging the size of a man's penis (important when eyeing up potential material – much rather decide, fuck, no way or hell, yes beforehand rather than waste time and be disappointed). So ladies, check out the size of male thumbs to avoid disappointment. Long thumb, good, short thumb, not so good, tiny thumb, forget it.. This led to more questions than answers – did the thickness of the thumb count too, did you measure from the ball to the tip of the thumb or from the bottom bone of the thumb to the tip? Was the thumb indicating the size of a stiffy or a limpy? I always thought a male's appendage size was propionate to the distance from the tip of his thumb to the tip of his index finger, hand fully extended. Anyone want to undertake a survey? Volunteers please!

Rain started to fall blotting my copy book and spurred the RA to announce that:

MOA AND HOLEPROOF, JOINT PRICKS OF THE WEEK:
both had looked at their mobiles during Circle when some dickhead called them.
