Run 1540

RUN 1540

“SAINT & JJ: BEACH PARK and CONFUSION RUN”

RUN REPORT:

Arriving at the Mahon Pool carpark looked to be a great spot to start a run, nice views, fresh air and plenty of people. JJ handed me three pages of maps and explained the on-backs and the trail direction.

DUNDEE was dying to get away first and had to be pointed in the right direction to the first on-back in Sackville St. The pack was called back down the hill and had to be forced to cross the road and continue south along the waterfront past the Surf Club and onto the beach, after rounding the South Maroubra Surf Club we came to a fence at the end of the carpark.

The trail went left onto the beach and DAME NELLIE refused to follow it because he would only have to come back again. A check was down the beach aways and back we headed on a council track up to Broome St.

On to the fourth map, then down through Broadarrow Reserve over Mons Ave to a check on Rossiter Lane. Trail was found in Duncan St. Map five along Malabar Rd for a short distance then up to French to a check along French to Maroubra to an on-back further. Along said road to another on-back up a set of stairs opposite Second Ave, to map six along Story St to a check through Fowler Reserve along Harrison Ave to a check on Malabar Rd then into Mermaid Ave to a check on Lurline St down Lurline to stairs and on home along the waterfront to the 7/8 halfway bucket and then onto the real bucket.

A well set and well marked run girls!

ON ON QR.

“It would have a very sharp, bitter taste!” The Duck’s response to Spini’s wine – obviously doesn’t value his life.

Circle Report

Hannibal began the proceedings by telling everyone of his close association with Little Pattie, who just turned about 70 & was the girl who introduced the world to the Maroubra Stomp dance, where everyone jumped up & down like demented fools until their teeth fillings fell out. Her introductory song was "He's my blond haired, stumpy wompy real gone surfer boy" – they don't write songs with amazing lyrics like that anymore. He then enlightened us to the fact that, as well as the stomping, there was also a lot of rooting taking place with **Holeproof** in the sand hills. Apparently it's about 10kms from the city & is abo for place of thunder or something, had trams in 1921 before anyone lived there, has Bra boys, who must have big tits, has 6 pubs & clubs, was the place they made the TV show "Heartbreak High", is well known for the up market residential area of Lexington Place & once housed Tilly Devine of high society fame. What a load of rubbish.

Run Report

Bingo had been selected to officiate over the last rites to the run & said something about it being less bush than she expected – no **Merkin** hadn't arrived. But there was lots of sand & plenty of variety with grass, hills & more sand as well as plenty of arrows, which didn't explain why she became lost – well it was **Bingo** I suppose. She thought it was a terrific run & gave it 8.999999999999999999999999 out of 10.

Visitors: - Dingbat from Darwin a former plaything of Modnoc.

Athletes: - Joker – 400 runs & Holeproof – 600 somethings.

Birthdays: - None but Dr. Hook is having one on Friday (birthday that is but he'll probably get one of them as well – ask Carpet Burn) @ the Kirribilli RSL – 6:00pm (18:00 for those in the services) everyone is welcome.

New Shoes: - Joker & I'll keep mentioning it until he gets to drink out of them.

Prickette and Prick nominations

Big Ears was nominated by **Jungle Jane** for backing horses with names that reflect Hash people, all of which ran like hash people of course except for one that ran like **Tooth Fairy**, which was the only one he didn't back of course at the course. I think the horse's name was **Sticky**, which is probably the reason he didn't back it because she doesn't run with us now but if he thought about it she was a State sprinter in her day so was a logical.

Dame Nellie was nominated by **Jungle Jane** for being off trail, which she thought was unusual but, for those of us who know him was really usual.

Dirty Weekend was nominated by **Cold Duck (who else)** for something about throwing Bra boys up a pipe or something, probably got stuck with their big tits.

Bingo was nominated by **Goon** for not vetting the leaving time for the run.

Saint was nominated by **Pig** for the same thing.

Pricks – Bingo & Dundee (buggered if I know)

Special Award to Rexy for recognising my oxymoron from last week, showing she's really not ridiculously smart just super smart & deserves a Gold Star & an Elephant Stamp.

HOLEPROOF'S PURPLE RUN FOR PSEUDO'S 70TH BIRTHDAY

MONDAY 21ST MARCH 2016

Pseudo becomes a septuagenarian (turns 70!) on Saturday 19th March & to help him celebrate this great occasion I am setting a run for all his Hash friends to come along & wish him well on Monday 21st March.

Venue: Limes Thai Restaurant (formerly The Nude Café)

Address: 14 Lime Kiln Road

Lugarno

Time: Usual start time 630pm

BYO: DUCK WILL HAVE A FINE SELECTION OF WINE TO PURCHASE

Please note there is no grog shop nearby except at the Lugarno shops which are about one klm before Lime Kiln Road

Directions:

For those using GPS devices the nearest cross street address is Forest Rd & Lime Kiln Rd Lugarno

For those without any aid, even a street directory, take the Forest Rd exit (left slip lane) at the traffic lights at Peakhurst where Forest Rd from Hurstville/Penshurst/Beverly Hills changes to Henry Lawson Drive. Proceed directly across 7 roundabouts & when you begin descending after a long flat section of road, Lime Kiln Rd is the 2nd street on the left. I will erect a B2H3 sign at the corner for you!

Bus 943 Hurstville to Lugarno leaves from the Hurstville bus interchange on the western side (Forest Rd) of Hurstville Station at **17.38** (5.38pm) & will get you to the bus stop at the corner of Lime Kiln Rd & Forest Rd at 18.05 (6.05pm). This bus also leaves from Penshurst Station at 17.46 (5.46pm).

I hope this helps you find your way as I promise you an excellent scenic run with flat parts, steps, hills, bushland & a half way drink stop! Delicious nibblies at the bucket will help erase the pain of the afore mentioned hills & steps!

Looking forward to seeing you at the run to help **Pseudo** celebrate this great milestone!

POOR OLD BUGGER!!

WHY A PURPLE RUN?

Please wear something purple, as the 21st March is the 23rd anniversary of the day we lost our lovely Shampoo. Her favourite colour was purple. For those of you who did not know Shampoo she was/is the much loved, beautiful daughter of Cannonmouth & Bowerbird & sadly passed away aged 30years in 1993 leaving her husband, Champagne (David), 6 months old son Mitchell, ^{Page 7} Bowerbird, Cannonmouth, Tooth Fairy & her other siblings devastated beyond our imagination. B2H3 members were devastated as well as Shampoo was such a vital, vibrant, fun loving member of our Hash family & loved by us all. Wearing purple will help us remember with love this amazing young woman!

Hash House Harriers (1938), Kuala Lumpur, Malaysia, is pleased to announce that it will be holding a celebration to observe its 80th Anniversary in September, 2018. Hashers from all corners of the hash diaspora bearing our name, or variations of it, are cordially invited to 'return' to the cradle – and the Eden - of hashdom, for a grand extravaganza in celebration of this momentous milestone. Participants will get to be a part of what is shaping up to be the largest congregation of hashers the world has ever known. Motherhash is ready to welcome you back to the origins; be transported back in time to where our hash forebears first germinated and gave birth to our very realm. Gispert and his band of trailblazing initiates of 1938 will be on hand, metaphorically, to welcome you back to our spiritual home, the HASH HOUSE. Yes, Motherhash's 80th Anniversary will conjunct with the unveiling of the resurrected HASH HOUSE, albeit by necessity in a different locality.

Be the fortunate first 1000 registrants, and pay only USD80.00 for the hashing experience of your lifetime! Registrations can be done online. Visit our website at: www.motherhash.com, and click on the link to our 80th Anniversary.

Please note that registrations are only accepted via our online registration portal as mentioned above, so please help out your friends who are not so IT savvy. We will not accept any hard copy or direct registrations. This 3 days event is open to ladies as well.

On On to the BIG 80th!!!

Hardy Boy Organising Secretary Motherhash's 80th Anniversary

Ps We strongly suggest, the real hashers register quickly before the Early Bird rate is all taken up – 518 at time of writing.

Dundee's Thought For The Week

Why is it that we hear so much bleating from these dopey environmentalists about the air pollution from coal burning power plants, when there's more air pollution from cows farting & shitting – actual facts undisputed by anyone to my knowledge. That's even apart from the fact that the coal power plants produce mainly Carbon Dioxide, which is needed for our plants to survive & produce oxygen, which we need to exist, whereas the cows produce Methane, which isn't conducive for plant or personal survival & can create asphyxiation in humans. What they should be promoting as their mantra, if they really care about the atmosphere, is Vegans but that would be too antagonistic to the many people awaiting the next meal undertaken by them (the Enviros) with cameras at the ready to record & replay on social media the absolute hypocrisy with which these dopes exist.

Does anyone agree with me that “Would I Lie To You” is the funniest show on the box or am I just weird like everyone says??

Snickers' Serious Scientific Summations

In respect to Dundee's rant above, Snickers is developing a cattle feedlot barn, which will be fully encased to catch all the CH₄ (Methane) from all the shit & farting & convert the gas into usable energy for the electricity grid. It would be necessary, of course, to have the heads of the animals outside the facility where their food is stored but that should be a pretty simple exercise with plastic yokes. A problem may be the lack of exercise for the animals, which would make the beef very tasty & very unhealthy so he's (good grief I typed he's with a capital H, now he's bloody God) devising a walking machine for them in order that they meet the minimum fat standards. Power for the machines would be extracted from the grid of course.

Another brilliant invention from our resident scientist.
