## Circle Report

**Hannibal**, began by discussing the election (erection if you're Chinese) suggesting it was going to be a hung parliament, like the Hash Committee, which is well hung – that was a personal observation of his & entailed use of a large microscope.

He then waxed lyrical about his favourite pilot – Charlie of the Smith variety – from whom the suburb in which we were ensconced was named, using his second name (I think Charlie would've been a better name for the people who inhabit the abode). Apparently it was inhabited by Greeks before they moved to Brighton & Melbourne & was supposed to be the end of the Eastern Suburbs Railway but the government believed that Greeks don't catch trains so they finished the line at Bondi.

Then we were given a detailed resume of Sir Charlie, who was born in Queensland before moving to Sydney & attending St. Andrews School so he was a C of E & his parents must've had heaps of dough. Before becoming Knight of the Realm he served in the First World War as a pilot, who flew over Gallipoli a couple of times to watch our blokes being slaughtered, attacking hostile balloons & throwing bricks at the opposition pilots for which he received the Military Cross.

He was also a great pants man apparently & **Holeproof** was one of his preferred concubines, he also gave good head according to the RA & we can only presume that was to women as he had a long tongue.

## Run Report

**Loan Arranger** was selected to administer the last rites to the run & began by talking about being in a huddle or something, then suggesting **Dish** was holding a basket for someone's foreskin or that's what it sounded like to me as I was behind him & couldn't read his lips & my hearing's fucked – together with an inability to write a half decent sentence are excellent qualifications for a scribe.

He then went on about losing **Dame Nellie** on the run (I thought that would represent some sort of award) because he was chasing possums, missing the magnificent half way bucket, arriving just in time for the circle. He thanked the hare for the well set run & gave her 9.6 out of 10 (96 is 69 if you're the woman).

**Visitors:** - Mongrel from the Larrikins, Brazilian from Neu Caledonie & Thong & Doubya from Brazilian & Merkin.

**Athletes:** - Jungle Jane – 1100, Dirty Weekend – 550 & Sir Les 500 but I think they mixed up the last couple

**Birthdays:** - None

**New Shoes:** - Joker & I'll keep mentioning it until he gets to drink out of them.

## Prickette and Prick nominations

**Saint** was nominated by **Merkin** for not recognising anyone of the Hash people at The Cronulla Leagues club on Saturday night because she was too pissed.

**Saint** was also nominated by **Jungle Jane** for crashing all day Sunday, waking only for coffee then heading back to bed – must've been a really good night.

**Dundee** was nominated by **Duck** for bringing a well-aged bottle of red for the On On.

**Dundee** was also nominated by **Bingo** for not fully interpreting her convoluted message about where she was that day & went to the incorrect address.

**Bingo** was then nominated by **Dundee** for creating the greatest dummy spit of all time for not being where he should be by attending to her needs as any Princess should expect, which meant for him to act as her personal chauffeur & be there on time any time required.

**Dame Nellie** was nominated by **Goon** for showing off his new attire (looked as though he dressed in the dark) at the start of the run & then not being seen for most of it – see above.

**Loan Arranger** was nominated by **Jungle Jane** for taking a pink suitcase on a recent trip but nobody said anything because he's intimidating.

**Pricks – Bingo & Dundee again of course – waste of time talking about it just give them the award every week.**

**Jokes: - None but Mongrel gave a dissertation about the benefits of attending the Larrikins Hash Relay – the flyer is in the Trash. He also talked about the upcoming 2000 run for the Larrikins – expect another flyer.**

Hash House Harriers (1938), Kuala Lumpur, Malaysia, is pleased to announce that it will be holding a celebration to observe its 80th Anniversary in September, 2018. Hashers from all corners of the hash diaspora bearing our name, or variations of it, are cordially invited to 'return' to the cradle – and the Eden - of hashdom, for a grand extravaganza in celebration of this momentous milestone. Participants will get to be a part of what is shaping up to be the largest congregation of hashers the world has ever known. Motherhash is ready to welcome you back to the origins; be transported back in time to where our hash forebears first germinated and gave birth to our very realm. Gispert and his band of trailblazing initiates of 1938 will be on hand, metaphorically, to welcome you back to our spiritual home, the HASH HOUSE. Yes, Motherhash's 80th Anniversary will conjunct with the unveiling of the resurrected HASH HOUSE, albeit by necessity in a different locality.

Be the fortunate first 1000 registrants, and pay only USD80.00 for the hashing experience of your lifetime! Registrations can be done online. Visit our website at: [www.motherhash.com](http://www.motherhash.com), and click on the link to our 80th Anniversary.

Please note that registrations are only accepted via our online registration portal as mentioned above, so please help out your friends who are not so IT savvy. We will not accept any hard copy or direct registrations. This 3 days event is open to ladies as well.

On On to the BIG 80th!!!

Hardy Boy Organising Secretary Motherhash's 80th Anniversary

Ps We strongly suggest, the real hashers register quickly before the Early Bird rate is all taken up – 518 at time of writing.

## Dundee's Rant of The Week

The answer to last week's question is 24 minutes 3.45 seconds.

So we've endured another election using the same useless technology, which will give us the same useless result & the same screaming calls for digital technology. What's the big deal??? Surely, if all the banks in the world, most retailers & just about every other trading operation can absolutely ensure they're dealing with the person, who has the only access to the trade, why can't the bureaucracy? It seems to work pretty well with our passports & car licences. But then again, I suppose it all comes down to manipulation. It's far too easy for the bureaucracy to manipulate the pencil administered voting system, which means we end up with the result they've selected. I know this sounds ridiculous but what other reason can there be for the resistance to digital elections?

## Snickers' Serious Scientific Summations

**Snickers has been asked to identify a workable digital solution to Dundee's rant above. Expect an answer within the next 10 years.**
